

CEP Showcase

Plant Design Automation

Brochure describes capabilities of CADWorx — COADE's AutoCAD-based programs for creating plant drawings. PIPE module draws pipe in any convenient format — 2D, 3D or isometric. P&ID makes process and instrumentation diagrams easy. Both programs smartly integrate plant data and intelligent drawings. Startup is quick, right out of the box. **Contact us at 281-890-4566 or sales@coade.com. Visit our web site at www.coade.com**

Molecular Weight in 3 Minutes

Viscotek's Flow Injection Polymer Analysis (FIPA) technique delivers fast and accurate average molecular weight and intrinsic viscosity in 3-5 minutes — without the need for elaborate sample preparation. FIPA provides the perfect complement to your current testing methods. Short sample turn-around time means it can be used for high throughput screening as well as routine process and

quality control. **For more information call us at 1-800-375-5966 or visit us at www.viscotek.com**
