Chemical Engineering Modeling Tool

COMSOL, Inc.'s FEMLAB puts you on the front line! FEMLAB Chemical Engineering comprises a powerful, unique environment for modeling momentum, heat and mass transport coupled to chemical reactions. Now you can model fluid flow, gas flow and incompressible turbulent flow using a single tool. FEMLAB's key features include: simultaneous solving of an arbitrary number of coupled nonlinear PDEs and state-of-the-art solvers for linear and nonlinear stationary and time-dependent problems in 1D, 2D, and 3D. **www.comsol.com**

ProMax® with TSWEET® & PROSIM®

ProMax® is a powerful and versatile stream based process simulation package for the design and optimization of gas gathering, amine sweetening, gas processing, refining, and chemical facilities. **Bryan Research & Engineering, Inc. Tel: 979-776-5220; www.bre.com**

50th ANNUAL SAFETY IN AMMONIA PLANTS AND RELATED FACILITIES SYMPOSIUM

KEYNOTE SPEAKER
Dr. Haldor Topsoe
Haldor Topsoe A/S, Denmark

September 25–29 • Toronto
The Fairmont Royal York

REGISTER TODAY and SAVE $90!

The 2005 symposium promises to attract the world's leaders and founders in Ammonia Plant Safety. Register before July 29 and save $90 on registration fees. Visit www.aiche.org/ammonia for details and registration or call AIChE Customer Service at 800-243-4363 (212-591-8100 outside the U.S.)

PROCEEDINGS AVAILABLE ON CD-ROM

For the first time, a comprehensive CD-ROM of the 2005 presentations, plus all proceedings from its 50-yr history will be available for purchase onsite or by contacting AIChE Customer Service
