

Chemical Engineering Modeling Tool

COMSOL Multiphysics® comprises a powerful, unique environment for modeling momentum, heat and mass transport coupled to chemical reactions. Now you can model fluid flow, gas flow and incompressible turbulent flow using a single tool! COMSOL Multiphysics' key features include: simultaneous solving of an arbitrary number of coupled nonlinear PDEs and state-of-the-art solvers for linear

and nonlinear stationary and time-dependent problems in 1D, 2D, and 3D. Tel: 781-273-3322; www.comsol.com

CALL FOR EXHIBITORS & SPONSORS

Disney's Dolphin Hotel, Orlando, FL,

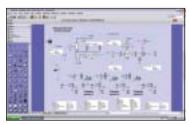

April 24-26, 2006

2006 AIChE Spring Meeting Expo 5th World Congress on Particle Technology Expo 2nd Global Congress on Process Safety Expo featuring: 21st Annual CCPS International Conference 40th Loss Prevention Symposium 8th Process Plant Safety Symposium

same exhibit floor with designated aisles for each Contact: Denise DeLuca Mallon, AIChE, ph 212-591-7170, denid@aiche.org

VMGSim[™] Advanced Process Simulation

Process Simulation Software models refining, chemical and oil/gas processing. Now includes support for Sulfur plants and Amine treating modeling. Write custom reactor kinetics without programming knowledge. Create custom unit operations and economic models

embedded in your process model using the embedded Excel™ operation. Embed HTRI Xchanger Suite™ or HTC STX/ACX™ exchanger ratings in the process model. Completely interactive, bidirectional simulation environment. For more information visit our website at www.virtualmaterials.com

Leadership Development Conference

Mark your calendar for June 2-4, for the 2006 Leadership Development Conference in Houston, TX.

Hosted by the South Texas Local Section, the conference will provide a venue for networking, professional development and discussion of AIChE programs for volunteer leaders in local sections. divisions/forums, committees, and operating councils.
