

**EQUIPMENT**

**FOR SALE / RENT**  
**24/7 EMERGENCY SERVICE**

**BOILERS**  
**20,000 - 400,000 #/Hr.**

**DIESEL & TURBINE GENERATORS**  
**50 - 25,000 KW**

**GEARS & TURBINES**  
**25 - 4000 HP**

WE STOCK LARGE INVENTORIES OF:

Air Pre-Heaters • Economizers  
 Deaerators • Pumps • Motors  
 Fuel Oil Heating & Pump Sets  
 Valves • Tubes • Controls  
 Compressors • Pulverizers  
 Rental Boilers & Generators

# Intelligen Suite®

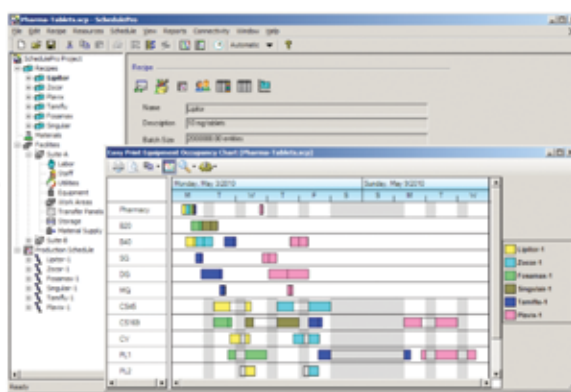

The Market-Leading Engineering Suite for Modeling, Evaluation, Scheduling, and Debottlenecking of Multi-Product Facilities

## SuperPro®

Use SuperPro Designer to model, evaluate, and optimize batch and continuous processes

## SchedulePro®

Migrate to SchedulePro to model, schedule, and debottleneck multi-product facilities

Easy production tracking, conflict resolution and rescheduling

Tracking demand for resources (e.g., labor, materials, utilities, etc.)

Managing inventories for input, intermediate, and output materials

**SuperPro Designer** is a comprehensive process simulator that facilitates modeling, cost analysis, debottlenecking, cycle time reduction, and environmental impact assessment of integrated biochemical, bio-fuel, fine chemical, pharmaceutical (bulk & fine), food, consumer product, mineral processing, water purification, wastewater treatment, and related processes. Its development was initiated at the Massachusetts Institute of Technology (MIT). SuperPro is already in use at more than 500 companies and 900 universities around the globe (including 18 of the top 20 pharmaceutical companies and 9 of the top 10 biopharmaceutical companies).

**SchedulePro** is a versatile production planning, scheduling, and resource management tool. It generates feasible production schedules for multi-product facilities that do not violate constraints related to the limited availability of equipment, labor, utilities, and inventories of materials. It can be used in conjunction with SuperPro (by importing its recipes) or independently (by creating recipes directly in SchedulePro). Any industry that manufactures multiple products by sharing production lines and resources can benefit from the use of SchedulePro. Engineering companies use it as a modeling tool to size shared utilities, determine equipment requirements, reduce cycle times, and debottleneck facilities.
