

Multitubular reactor scale-up and design

- Design of multitubular fixed-bed catalytic reactors
- Scale-up from bench to pilot and commercial
- Gas or liquid phase
- Tube-side design (number, dimensions)
- Shell-side design (baffle configuration, tube pitch, coolant flow)
- Catalyst layer optimization
- Impact of catalyst shape, size, internal structure
- Hot spot management
- Kinetics identification, catalyst deactivation
- Advice on design of experimental programs

Traveling Gangway Fits Any Car or Truck

Track mounted gangway can be moved back and forth along the elevated track and extended as necessary to provide safe and easy access or egress from the vehicle no matter what the spotting or configuration.

New Clean Energy Guide Radically Expands Environmental Flow Measurement Solutions

The 40-page Sierra Clean Energy Guide offers engineers, scientists, plant managers, and designers alike an up-close look at how Sierra is partnering with customers from all over the world to develop sustainable solutions

to some of today's most pressing environmental problems. From high performance flow measurement tools that help create biofuel from solid wastes to unlocking the carbon history in Antarctic ice to determine how much CO₂ the ocean can digest, the Sierra Clean Energy Guide details a broad range of problem/solution scenarios. In addition, the guide explores how water and energy conservation efforts are met using the Model 205 clamp-on, non-intrusive ultrasonic flow meter designed to measure thermal energy flow rate and totalized energy consumption in liquid heating and cooling applications. THINK GREEN—THINK PULSAIR

Pulsair Chemical and Wastewater Mixing Systems efficiently mix aeration tanks, anoxic basins, sludge tanks, and chemical tanks using up to **75% Less Energy** than conventional mechanical mixers...and there are no immersed impellers, shafts, gears, seals or any other moving parts in the tank.

PULSAIR

The Fastest, Most Efficient Low Shear Mixing System Available Today!

For information on the Pulsair Automated Mixing System best for your application, Call 800-582-7797 Email sales@pulsair.com

Free Tutorial CD Featuring Fluid Flow, Heat and Mass Transfer, and Reaction Kinetics

COMSOL® is now offering a free copy of the 2011 Edition of the Conference CD! This CD is a well rounded compilation of works from the worldwide multiphysics simulation community. It contains over 500 presentations from our recent conferences in Boston, Paris and Bangalore. Applications featured include microfluidics, electrochemistry, transport phenomena, reaction engineering, and many more.

Request your complimentary copy of the CD at www.comsol.com/cep-showcase
