

Single Use Molded Manifolds

Available with validated sterility assurance

- Eliminate barbed fitting connections and their leak potential
- Reduce contamination risks
- Increase production efficiencies

One Component Silicone

SERVICEABLE UP TO 300°C
MasterSil 801

- Fast non-corrosive cure
- Elongation 250 to 300%
- Self-leveling paste
- Electrically insulative

VMGSim™ Process Simulator

Bringing your vision into reality

Design ▶ Troubleshoot ▶ Optimize

We provide accurate, robust and cost-effective process simulation solutions. Your productivity and competitiveness are our priorities.

Methanol Dehydration to DME

- ▶ Steady State and Dynamic Process Simulation for the Oil, Gas and Chemical Industries.

Design Flow Solutions®

DF Branch | DF DesignNet

Design Flow Solutions is the most comprehensive, cost effective engineering aid available for complete hydraulic analysis of complex piping systems.

This powerful software package provides engineers with:

- Complete hydraulic analysis of complex piping,
- Effective solutions to fluid flow problems,
- Fast, reliable reference information.

INSTANT ACCESS TO CHEMICAL ENGINEERING SHOWCASE

See the latest developments in simulation and modeling increase productivity in the design of chemical processes and reactors. The brand new Chemical Showcase from COMSOL® includes a range of great resources for all things chemical, including:

- Videos
- Models
- Articles
- White papers
- And more ...

Request instant access today at:

High Accuracy In-Line Viscosity Measurement Dynatrol® Systems

FAST and EASY – CONTINUOUS READINGS

- Operates in a wide range of conditions
- Excellent success with asphalt, adhesive, paints, primers and other industrial products.
- Rugged performance with amazing longevity
- CSA NRTL/C approved for Class 1 Group D Div 1
- Microprocessor based – digital accuracy
- Outstanding repeatability in Newtonian or shear thinning liquids
- Noise immunity – for harsh industrial environments
