

Knowledge Management Committee Report

January 30, 2014

Sanjeev Kapur
Mike Kennedy
Walter Postula
Mike Tallman
Greg Yeo

Conference Proceedings

- 2013 papers & presentations uploaded to Omnipress, final corrections submitted. Final completion imminent.
- Plans for 2014 papers & presentations
 - Discussions initiated with Omnipress for 2014 upload and hosting of EPC Library:
 - Plan to have contract in place prior to 2014 conference
 - Upload papers immediately after conference
 - Aim to have papers available to community weeks after conference. *Propose that we commit to this at the conference.*
 - Omnipress offer for upgraded website:
 - Improved search functionality
 - Wider range of browsers supported, including mobile
 - Payments engine
 - Increased security for registering / deregistering user accounts
 - Greater design flexibility and web features
 - Significant increase in cost
 - Knowledge Management Committee recommendation: No change
 - Increased functionality is not of value to EPC
 - Confirm Omnipress long term commitment to current platform

Website Hosting

- New EPC website now active: www.aiche.org/epc
- Advantages over current site:
 - Professional look/feel
 - Easy to remember URL
 - Flexible platform for announcements, hosting of records, information sharing with Committee / Session Chairs / ethylene community
 - Accessible to all member companies – low probability of blocking by company firewalls
 - Easy to maintain, links to conference and AIChE training assets
 - Login security managed by EPC user account system
- Site managed by Knowledge Management Subcommittee members
 - KM Subcommittee members registered with AIChE as webmasters
 - EPC Program Chair and Program CoChair registered with edit access for posting announcements, events, Session Chair resources

Process Safety Training Modules

- Status:
 - Contracting / legal considerations:
 - Liability protections for EPC
 - Author's warrant of right to disclose
 - EPC's right to distribute
 - No confidential or proprietary information
 - Copyright ownership
 - Payment to authors for costs incurred
 - Hosting: EPC website or Omnipress preferred. Consider YouTube Channel as a potential future option
 - Development of "pilot" module: "Cold Safety / Brittle Fracture in Ethylene Plants"
 - Future content

Plan for Safety
