- 2023 Young Leader Award
- 2023 Management Award Deadline
- 2023 AIChE Annual Meeting Abstracts
- 2022 Chair's Column and 2023 Leadership Updates

Recognition and Award

Dr. Ran Xu selected for 2023 Young Leader Award!

This award recognizes an outstanding leader, age 40 or under, who has made a significant contribution to the success of their organization by advancing a scope, project, unit, plant, division, technology, strategy or company that made an impact to the practice or field of chemical engineering. Dr. Ran Xu was selected as

the recipient of the 2023 Young Leader Award. The award will be presented at the AIChE Annual Meeting to be held in November 2023, in Orlando, Florida, USA.

Dr. Ran Xu is a leader of a SWAT team of engineers at Kingston, Ontario, Canada that supports Dupont's business challenges. Dr. Xu has made substantial technical and managerial contributions for a wide array of industrial projects and authored several publications. Kudos! to Dr. Ran Xu for her versatile and excellent track record.

Call for nominations: 2023 Management Award

The AIChE Management Division recognizes an outstanding individual who has made a substantial contribution to the Management of Engineers involved in the field of Chemical Engineering or to management techniques and procedures utilized in this field.

Winners of the award are recognized with an honorarium and should be prepared to give a presentation on an important management topic of their choice at the 2023 Annual Meeting if selected. Some key roles of recent Management Award Recipients include Director of Engineering in Major Chemical Company, Production Operations Manager, Plant Site Manager, Global Customer Service Director, Leadership in Federal Government Agency, Process Development Management, and Project Leader.

The award process and criteria with applications are available on the AIChE Management Division [website](#). Complete applications due by **March 31, 2023**.
