### Meeting Announcement

#### **Gary R Tomkins Chilled Water Operations Center**

Location: 140 Mason Farm Road, Chapel Hill, NC, 27514  
When: Tuesday, February 26<sup>th</sup>, 2013  
Time: 6:30 PM  
Request: Bring your spouse or a guest.  
Limit: The event is limited to 30 persons, so RSVP early

Join us for a tour of the Gary R Tomkins Operation Center at the University of North Carolina at Chapel Hill. The center was completed in 2006 and houses the operations control room for the most complex and sophisticated chilled water generating system in the State of North Carolina. It operates four chilled water plants, North, South, Cobb and Tomkins, which comprise a single virtual chilled water control system. The center also houses three 2,000 ton electric chillers, two 2,250 ton plate and frame heat exchangers and the pumps for a 5,000,000 gallon thermal storage tank.

The tour will be led by Douglas Mullen, Chilled Water Systems Manager. Douglas studied engineering at the University of Nebraska at Lincoln, coming to UNC-CH in 2007. Douglas also worked at Iowa State University at their power plant for 11 years

An optional dinner meeting will be held afterwards at Mama Dip's for those who wish to socialize over a traditional southern meal. <http://www.mamadips.com/>  
Members and guests will be responsible for their own orders.
