**Advancing Materials Innovation: ASM International’s Role in Research, Industry and Education**

Presented by: Mr. Michael Plishka, Business Development Director – Education, ASM International

Contact Information: [linkedin.com/in/michael-plishka](https://www.linkedin.com/in/michael-plishka)

**Abstract:**

We will receive a tour of the ASM International Gardens area surrounding the facility as well as a facility tour of the educational facilities for customized on-site educational operations and a description of remote in-classroom delivery operations.

**Speaker’s Biography:**

Mr. Mike Plishka has over 30 years of experience in various technical, management, and business development roles. With a B.S. in Physics from the University of Scranton, Mike has held positions in engineering and business development across organizations such as Swagelok, Dassault Systemes, and ASM International.

As the Business Development Director - Education at ASM International, Mike focuses on operations, and growth of the education line-of-business. His team is responsible for development and delivery of in-classroom, customized on-site, and online education courses, covering a wide range of materials and processes.

Prior to joining ASM International, Mike spent over a decade at Dassault Systemes working with ABAQUS Finite Element Analysis and other simulation tools in various capacities, including Industry Solution Manager and Business Development Manager.

At Swagelok, Mike started as a Laboratory Engineer, where he gained experience in testing products and materials. He then progressed through various supervisory roles, managing materials labs, simulation analysts, and eventually working on product development process improvements, where he facilitated lean events and led engineering knowledge management initiatives.
