

Institute for Learning and Innovation – Divisions and Forums

Serving as integrator and helping chemical and related engineers at every career juncture bridge the skills gap created by a rush of technology, changing work styles & unprecedented societal needs.

Engagement of Divisions & Forums

- Recognize gaps in learning content
 - can support facilitated workshops
- Review and improve curricula
- Identify subject matter expertise
- Collect and synthesize trending topics

If you are interested in engaged in an industry gap
assessment – let us know

Build Bigger, Build Better, Build Together

- Continue to identify impending industry needs
- Focus on skills-based learning best practices
- Increase our network of Subject Matter Experts
- Provide additional learning opportunities at any career juncture
- Enhance hands-on practical learning components
- Review and refresh existing content to meet 21st Century needs
