Particle Technology Forum

AMERICAN INSTITUTE OF CHEMICAL ENGINEERS

Vol. 8 No. 3

Spring 2004

The PTF is an international and interdisciplinary forum that promotes information exchange, scholarship, research, and education in the field of particle technology – that branch of science and engineering dealing with the production, handling, modification, and use of a wide variety of particulate materials, both wet or dry, in sizes ranging from nanometers to centimeters. Particle technology spans a range of industries to include chemical, petrochemical, agricultural, food, pharmaceuticals, mineral processing, advanced materials, energy, and the environment. See www.erpt.org/ptf for more information.

LETTER FROM THE CHAIR

Annual Meeting: We had a great turnout for the **2003 Topical Conference on Engineered Particles** to help the AIChE set a new record of meeting attendance. We presented a plaque to Shrikant Dhodapkar in honor of his fine work as Program Chair for Area 3, and we welcomed Manuk Colakyan as his successor. The new Energetic Materials Group ran several sessions here and will continue to organize programs as group 3e.

Bylaws: At our annual membership meeting we passed the proposals published in the last newsletter to codify our practice of sharing governance of the PTF equally between academic and non-academic members. We also passed a bylaw amendment to allow and specify procedures for using Email to elect Executive Committee members. This will make the process faster and less expensive. The Bylaws are posted on our Web site.

Endorsement: The Executive Committee voted to endorse the **2004 International Powder & Bulk Solids Conference / Exhibition**, to be held on May 3-6, 2004, in Rosemont IL. I shall represent both the AIChE and the Particle Technology Forum and the Fifth World Congress on Particle Technology (to be managed primarily by the PTF) with an informational table at this event. Vice Chair Alan Weimer and I shall also represent these at **POWTECH / PARTEC 2004** in Nuremberg, Germany, March 16-18, 2004.

Dues: The PTF has not raised dues since our formation a decade ago, and as costs have risen we have had reduced ability to support programs. Effective for 2005 the dues will be increased from \$5 to \$10 per year. To help our non-AIChE members avoid making several small annual payments, we have introduced an option to make a single \$50 dues payment to cover five years.

Finances: The financial problems of the AIChE led to a review of the organization's accounting procedures. Although the assets of the unincorporated divisions belong to the AIChE they have not been managed through the central accounting and audit system. When this red flag was raised by the auditors the AIChE took swift action to bring division funds into the central accounting and audit system. In January 2004 PARSAT's treasurer, Richard Turton, moved to our headquarters account all but \$2,500 of the money in our checking account (which will now be treated as a petty cash account). The escrow will be invested in the AIChE's investment pool (which had a 14% return in 2003). Documented expenses will be reimbursed as in the past, and we do not expect any difficulty from these changes in financial policy.

The Fifth World Congress on Particle Technology (which we are hosting for the first time ever – it started in 1990) now has its own Web domain at <wcpt5.org>. If you can help out by chairing a session, finding exhibitors, welcoming international visitors, or in another capacity, please send an Email to me at ERPTmged@aol.com. Mark your calendar for April 23-27, 2006, in Orlando FL, and plan to present your best work to this international gathering.

I thank all members for helping make our forum a dynamic and productive organization.

– Dr. Ralph Nelson, PTF Chair

Call for PTF Award Nominations

All Awards nomination packages should be sent to Prof. Alan Weimer, Department of Chemical Engineering, 1111 Engineering Drive, University of Colorado, Boulder, CO 80309-0424 (phone: 303-492-3759; FAX: 303-492-4341; e-mail: alan.weimer@colorado.edu). The Awards include (1) The Fluidized Processes Recognition Award, (2) PTF Forum Award, (3) Lectureship Award in Fluidization, (4) Thomas Baron Award in Fluid-Particle Systems, and (5) Best Ph.D. in Particle Technology Award. **All nomination packages are due by April 1, 2004.** See the following web site for specific information on the awards:

<http://www.erpt.org/ptf/awards.htm>

Student Poster Award Winners

Congratulations to the following students, who won awards for their post presentations in the "Advance in Particle Technology Session" at the recent AIChE meeting in San Francisco.

1st place: Photoinduced Transformations at the Semiconductor -Metal Interface in Films and Solutions

Vaidyanathan Subramanian (speaker, University of Notre Dame)

Eduardo E. Wolf (co-author, University of Notre Dame)

Prashant Kamat (co-author, University of Notre Dame)

2nd place: Bubble Simulation Using Kinetic Theory

Jonghwun Jong (speaker, Illinois Institute of Technology), Dimitri Gidaspow (co-author, Illinois Institute of Technology) and Isaak K. Gamwo (co-author, DOE, National Energy Technology Laboratory)

3rd place: Optimization of the Prediction of Moisture Content Inside a Fluidized-Bed Dryer Using FT-NIR Spectroscopy

Elizabeth Rivera (speaker, University of Puerto Rico)

Carlos Velazquez (co-author, University of Puerto Rico)

Special thanks go to the judges, Prof. Raj Dave of NJIT, Dr. Pat Spicer of Proctor and Gamble, and Dr. Mark Swihart of SUNY Buffalo.

2003 AIChE Annual Meeting: Snapshots

Ye-Mon Chen (Shell) with Thomas Baron Award Winner, Sotiris Pratsinis

Paul Mort (Proctor & Gamble) presents Best PhD Award to Stephen Tallon (with Al Weimer in Background)

Karsten Keller (DuPont) with Chi Tien, who won the PTF Lifetime Achievement Award

Manuk Colakyan (Dow) and Hamid Arastoopour, winner of the Fluidized Process Recognition Award

Reg Davies commemorates Brian Kaye

Shrikant Dhodapkar and his wife at the PTF Awards Banquet

2004 AIChE Annual Meeting

**November 7-12, Austin Convention Center,
Austin, TX**

15B13 – Characterization of Pharmaceutical and Fine Chemical Powders	Joseph McCarthy, mccarthy@engrng.pitt.edu	Hugo Caram, HSC0@Lehigh.edu
15B17 – Mixing Challenges in the Pharmaceutical and Biotechnology Industries	Christopher Burcham, cburcham@lilly.com	Subodh S. Deshmukh, subodh.deshmukh@bms.com
15C22 – Systems Biology “Omics” Technology Development	George S. Michaels, goerge.michaels@pnl.gov	Matthew P. DeLisa, md255@cornell.edu
20029 – Fluidized Bed Technologies	Hugo Caram, HSC0@Lehigh.edu	Gautham Parthasarthy, ggpart@solutia.com
22007 – Nanotechnology and Nanobiotechnology for Sensors	Mark W. Vaughn, Mark.Vaughn@ttu.edu	Venkat R. Bhethanabotla, venkat@eng.usf.edu
22028 – Self and Directed Assembly at the Nanoscale	Hank Ashbaugh, hank@lanl.gov	Kristen A. Fichthorn, fichthorn@psu.edu

WCPT5

WE'RE GETTING READY

Every four years members of the global particle technology community converge to share their latest insights and applications to industrial, academic, and civil problems. The meeting place cycles between three groupings of continents.

WCPT-5 will be held on April 22-27, 2006 in the USA
at the Swan and Dolphin Hotel
in Walt Disney World,
Lake Buena Vista, Florida.

We hope that you will join us.

WCPT-5 will offer a concentrated agenda on particle technology, offer a student conference and introductory seminars for people entering the field, and provide an exposition with displays of the most recent information and hardware resources for making, measuring, processing, and handling all types of particles.

WHAT WILL HAPPEN AT WCPT-5?

A Student Conference will be provided just before the Congress by the Particle Engineering Research Center (University of Florida, Gainesville). Details will be provided at a later date. The Technical Program will be built around five tracks of discussion, which will be represented in concurrent meeting sessions. You may follow one track or mix tracks.

- * Particle and Bulk Powder Characteristics
- * Particle Design, New Technologies, and Industrial Applications
- * Powder Handling and Multi-Phase Flow
- * Solid-Fluid Separation Processes
- * Education

In addition, a growing amount of research in the area of nanoscience and engineering will show how this interdisciplinary field has taken the powder world by storm in all countries, developing new physics and chemistry to enhance powder processing.

Abstract Requirements: Contributions will be invited for both oral and poster presentations. People who wish to make presentations will have to submit a proposal-to-present form, which will have spaces for the title, author names, and a 200-word summary of the presentation. The proposal will be due by September 1, 2005. Notices of acceptance will be issued by November 1, 2005.

21st Zurich Short Courses

**March 22-26, 2004
Zurich, Switzerland**

**Hosted by the Swiss Federal Institute of Technology
(ETH in Zurich)**

The courses are organized in a modular form as intensive introductory courses for persons having basic knowledge of fluid mechanics, heat transfer, and numerical techniques, but also serve as advanced courses for specialists wishing to obtain the latest information.

Several lectures have been updated and completely new lectures added this year.

Part I, Bases has been updated again and modified to emphasize the latest modeling and computational aspects of multiphase flows. Flows in micro-channels and molecular dynamics have been added this year.

The New Reactor Systems and Methods part reviews the most recently proposed advanced reactor system designs (such as those in Generation IV) and introduces the state-of-the-art and beyond in modeling and simulation methods for core design and accident analysis.

The module on Computational Multi-Fluid Dynamics (CMFD) reflects the growing interest in the application of CFD techniques to multi-phase flows. The module has been expanded this year to cover most new computational techniques.

The emphasis in these courses is on:

- * A condensed, critical and updated view of basic knowledge and future developments, in relation to systems and phenomena encountered in industrial applications
- * Trends in modeling, design, analysis, computational techniques, CFD and CMFD methods
- * Sources of information, data and correlations
- * Availability and limitations of modern modeling and computational techniques and codes
- * Transfer of knowledge from one area of applications to another

You will find detailed information about the course, as well as a registration form, in <http://www.lkt.mavt.ethz.ch/courses/multiphase/Short-Course.html>

Gordon Research Conference

Granular and Granular-Fluid Flow
June 27 – July 2, 2004
Colby College, Maine, USA

TOPICS

- Granular physics
- Theory and transitions
- Large scale flows
- Suspensions
- Patterns
- Dense flows

INVITED SPEAKERS

- R. Behringer
- A. Goldshtein
- L. Mahadevan
- S. Nagel
- F. Spahn
- C. Wassgren
- E. Clément
- T. Halsey
- O. Pouliquen
- J. Parsons
- P. Umbanhowar
- E. Weeks
- M. Dijkstra
- D. Iverson
- D. Rothman
- T. Shinbrot
- M. van der Hoef
- I. Goldhirsch
- D. Lohse
- P. Mucha
- L. Silbert
- N. Wagner

ORGANIZING COMMITTEE

- M. Louge (Chair)
- C. Hrenya (Vice Chair)
- A. Hosoi
- W. Losert
- T. Pöschel
- T. Shinbrot

ICBMH '04

8th International Conference on Bulk Materials Storage, Handling and Transportation

July 5-8, 2004

University of Wollongong, Australia

<http://www.uow.edu/au/eng/icbmh/>

Based on the 100 abstracts received to date, ICBMH '04 is shaping up to be an extremely interesting and useful event. For example, the papers will be covering the following main topic areas

- ❖ Environmental Technology
- ❖ Feeding Technology
- ❖ Flow Monitoring and Measurement
- ❖ Flow Properties
- ❖ Handling and Processing
- ❖ Mechanical Conveying
- ❖ Pneumatic Conveying
- ❖ Storage Facilities and Structures

Also:

- (a) the types of papers will include theoretical/experimental investigations, computer simulations, case and systems studies, latest developments, new products and technologies;
- (b) an interesting mix of academic and industrial authors from 14 countries will be participating in ICBMH '04: Australia, Austria, Chile, Germany, India, Israel, Japan, New Zealand, Norway, P.R. of China, South Africa, The Netherlands, U.K. and U.S.A.

The networking opportunities will be amazing – something any "powderhead" should not miss !!

Don't be left behind, join us at ICBMH '04 !!

Academic 2000-2004: Professor Thomas R. Blake, blake@ecs.umass.edu, 413-577-6606
Industry 2004-2006: Professor Manuk Colakyan, colakymc@dow.com, 304-747-4580
Industry 2004-2006: Dr. Costas Coualaloglou, costas.a.coualaloglou@exxonmobil.com
Industry 2000-2004: Dr. Paul Mort, mort.pr@pg.com, 513-627-8876
Industry 2000-2004: Dr. Shrikant Dhodapkar, sdhodapkar@dow.com, 979-238-7940
AIChE-CTOC: Esin Gulari, egulari@nsf.gov, 703-292-7026
AIChE Staff Associate: Mr. Richard Green, richg@aiche.org, 212-591-8677

Standing Committees (Chairs):

Awards Committee 2002-2004: Professor Alan Weimer, alan.weimer@colorado.edu, 303-492-3759
Membership: Dr. Manuk Colakyan, colakymc@ucarb.com, 304-747-4580
Newsletter Editor: Professor Christine Hrenya, hrenya@colorado.edu, 303-492-7689
Nominations: Professor George Klinzing, klinzing+@pitt.edu, 412-624-0784
Recognition: Dr. Reg Davies, rdavies@erc.ufl.edu, 302-235-7468
Educational Resources for Particle Technology: Prof. George Chase, gchase@uakron.edu, 330-972-7943

Technical Programming Area Liaison and Group Chairs

The main focus of the PTF has been arranging for the extensive technical programs at the annual AIChE meeting in November. A lot of hard work goes into developing session themes, negotiating for sufficient time and reasonable scheduling of the sessions, attracting and screening papers, finding and training new session chairs, and making sure the whole process flows smoothly. Shrikant Dhodapkar, our Area 3 Liaison, attends an all-day session each January to plan the technical sessions at the Annual Congress and to arrange for co-sponsored sessions with other Divisions and Forums. Participation in this process is excellent training in and proof of management capabilities. The leaders selected this fall were

<u>Position</u>	<u>Person</u>	<u>Affiliation</u>
Area 3 Liaison	Dr. Manuk Colakyan	The Dow Chemical Co.
Area 3 Vice Liaison	Dr. Ralph D. Nelson, Jr.	DuPont, retired
<i>Group 3a – Particle Production and Characterization</i>		
Chair	Dr. Paul Mort	Procter & Gamble Co. ITC
Vice Chair	Prof. Rajesh N. Dave	New Jersey Inst. of Techn
<i>Group 3b – Fluidization and Fluid-Particle Systems</i>		
Chair	Prof. T.C. Ho	Lamar University
Vice Chair	Dr. Ray Cocco	The Dow Chemical Co.
<i>Group 3c – Solids Flow, Handling, and Processing</i>		
Chair	Prof. Joe McCarthy	Univ. of Pittsburgh
Vice Chair	Vacant	
<i>Group 3d - Nanoparticles</i>		
Chair	Prof. Rajesh N. Dave	New Jersey Inst. of Techn
Vice Chair	George Fotou	Cabot, Inc
<i>Group 3e – Energetic Materials</i>		
Chair	Bruce Cranford, P.E.	EMF Co.
Vice Chair	Chester Clark	Naval Surface Warfare Center

Report from the Treasurer

American Institute of Chemical Engineers Particle Technology Forum Income Statement For Period of January 1 – December 31, 2003

The following report is split into two separate sections. The first table details transactions associated with the checking account that is administered by the treasurer (me). The second table reflects the funds administered by AIChE headquarters. The combination of the funds in these two accounts represents PTF's total assets.

PTF Checking Account

Balance as of 01/01/03 from PTF Newsletter			\$ 13,998.86
Transferred to Morgantown account 1/30/2003 and 7/28/2003		\$(13,857.86)	
Cost of transfers		\$ (41.00)

Fluidized Processes Award	\$(1,000.00)	
Balance as of 12/31/03		\$ 5,990.74

PTF Organizational Information

To complicate things further, the checking account was transferred from Boulder, Colorado, to Morgantown when I took over from Al Weimer as treasurer at the beginning of the year. As of 12/31/03, the Boulder account has a balance of \$100, the Morgantown account has a balance of \$4,223.45, and the account at AIChE HQ has a balance of \$5,990.74. The beginning and end of year balances for 2003 are given below and show a net increase in our assets of \$522.75 for the period 01/01/03 to 12/31/03.

Total Assets of PTF as of 01/01/03 = \$ 13,998.86 + \$ (4,207.42) = **\$ 9,791.44**

Total Assets of PTF as of 12/31/03 = \$ 4,223.45 + \$ 100.00 + \$ 5,990.74 = **\$ 10,314.19**

Finally, as requested by AIChE HQ, the balance in our checking account was reduced to \$2,500 by transferring \$ 1,723.45 on 01/16/04 to the PTF account at AIChE HQ.

Respectfully submitted,
Richard Turton, Treasurer, PTF
