2023 AIChE Midwest Regional Conference  
April 11-12, 2023  
University of Illinois at Chicago, Chicago, IL  
[15th AIChE Midwest Regional Conference | AIChE](#)

The 15<sup>th</sup> Annual AIChE Midwest Regional Conference (MRC) will be held April 11-12, 2023 at University of Illinois in Chicago (UIC), organized by the [Chicago Local Section](#). The AIChE MRC provides an opportunity for engineers and scientists in the region to learn about new technologies and network with others.

Each year, the conference is made possible by generous contributions from corporate sponsors. Sponsorship encourages attendance and participation at the conference, improving the event for sponsors and attendees. Please see attached sponsorship levels to see how your company can get involved and for specific benefits of sponsorship.

In addition to the technical programming, the AIChE MRC is proud to continue hosting the High School Engineering Career Outreach Program. Chicago-area high school students will become acquainted with the various facets of the engineering professions. This program also includes a lunch that is held in conjunction with the conference -- students will be seated with practicing engineers during lunch to get a personal take on what it's like to be an engineer. Sponsorship of the Student Outreach Program helps cover transportation and lunch for about 400 students over both conference days.

Technical Sessions from past years included:

- Process Safety
- Biofuels
- Pharmaceutical Processing
- CFD Methods and Applications
- Process Modeling and Estimation
- Sustainable Power Systems
- Electro-Chemical Processes
- Drug Delivery
- Refining & Petrochemical Processing
- Process Operations and Control
- Environmental Engineering
- The Hydrogen Economy
