

SOLAR ENERGY SYSTEMS CONFERENCE

December 12-13, 2019
Baylor Research &
Innovation Collaborative
Waco, TX

You're invited to present your work at the **2019 Solar Energy Systems Conference** this December. The AIChE® Center for Energy Initiatives (CEI), in collaboration with other entities, is hosting a 2-day symposium to focus on solar energy innovation, challenges and opportunities for engineers and other stakeholders.

TOPICS INCLUDE

- Solar Energy Storage
- High Temperature Materials for Solar Thermochemistry
- Materials Sustainability for PV
- Grid Integration of Solar Energy
- RAPID Workshop

Submit an abstract, register and learn more about Solar Energy System Conference

CONFERENCE CHAIR

Alex Yokochi
Baylor University, USA

STEERING COMMITTEE

Nick AuYeung
Oregon State University

Rohini Chandran
University of Michigan

Jane Davidson
University of Minnesota

James Klausner
Michigan State University

Nickolas Kotov
University of Michigan

Russell Lefevr
IEEE

Wojciech Lipinski
The Australian National University

Ignasi Palou Rivera
RAPID

Annette Von Jouanne
Baylor, IEEE

Fengqi You
Cornell University

ORGANIZED BY

AIChE
The Global Home of Chemical Engineers
