

The American Institute of Chemical Engineers with the  
University of Texas at San Antonio

## Welcome Students

March 28, 2017

## Being an Engineer – Creating a World That Works!

**9:00 AM**

### **WELCOME AND OPENING COMMENTS**

*Rick Isherwood* | Senior Manager Regional Services, Honeywell UOP

**9:15 AM**

### **ENGINEERING CAREERS**

*Dr. Joo L. Ong* | Associate Dean of Administration and Graduate Studies, UTSA College of Engineering

**9:25 AM**

### **GREEN FUELS & WATER**

*Krystina Kamjorn* | Chemical Engineer, Honeywell UOP

**9:55 AM**

### **WHAT IS ENGINEERING?**

*Rick Isherwood* | Senior Manager Regional Services, Honeywell UOP

**10:30 AM**

### **FRIENDLY COMPETITION: WHAT KIND OF ENGINEER AM I?**

Emcee: *Rick Isherwood*

Participants: Selected Student Representatives

**11:00 AM**

### **THE ENGINEERING EXPERIENCE: A PANEL DISCUSSION**

Chair: *Rick Isherwood*

Panelists: *Kristine Chin, Krystina Kamjorn*

**12:00 PM**

### **LUNCH & CHAT WITH PROFESSIONAL ENGINEERS**

## HIGH SCHOOL STUDENT OUTREACH PROGRAM

### WELCOME!

*This special middle and high school program, offered by the American Institute of Chemical Engineers (AIChE), is made possible by Honeywell UOP and the University of Texas at San Antonio. The goal of this program is to expose students to chemical engineering and related engineering professions, and give them an opportunity to interact with professional engineers, engineering students, and engineering faculty.*

*We hope you come away from this program with an idea of what chemical engineers do, how they touch your life, and whether or not you want to pursue an engineering career. We encourage you to stay engaged, ask questions, and get the most you can out of this unique program. Oh...and have fun!*
