

Special Program

Meeting of New Engineers and Students/Networking Program

Sponsored by AIChE Peru

November 4, 2021

5:30 PM-7:30 (CST)

This specific program has been created to cater to New Engineers or Engineering Students to have a basic exchange of information about Process Safety in the Industry. Several Speakers of AIChE Peru will be presenting and the Format will be Panel Discussion. Links (Zoom) will be provided to registered attendees to LAVIRTUAL.

Meeting of New Engineers and Students/Networking Program

- **Objective:** Motivate students and young professionals to pursue a career in process safety and raise awareness of the challenges young people must face to be successful in this area.
- **Methodology:** Presentations will be offered in the form of Story Time of each invited speaker. Attendees will be able to enjoy a networking session with professionals with other young professionals and senior professionals.
- **Mode:** Virtual (zoom Platform)
