

Challenge Category: Customers, Vendors, and Community

This task is designed to:

- Engage external stakeholders to promote hydrogen safety awareness and practices.
- Build stronger relationships with customers, vendors, and community authorities around hydrogen safety.
- Share insights and experiences to support collective safety improvements.

Participants can progress through four levels, earning up to 4 points in total.

Levels of Participation

1. Base Level (1 Point)

Objective: Communicate to your customers, vendors, or AHJ (e.g., fire and police department) about why hydrogen safety is important to your business.

How to Earn: Submit a brief written summary of what you communicated via the [submission form](#).

2. Level Up (+1 Point)

Objective: Institute a hydrogen safety expectation with your customers to ensure better practices.

How to Earn: Submit a brief written summary of what you communicated via the [submission form](#).

3. Another Level Up (+1 Point)

Objective: Meet with your AHJ to provide hydrogen safety resources.

How to Earn: Submit a brief written summary of what resources you shared and with whom via the [submission form](#).

4. Community Building (+1 Point)

Objective: Share your insights and experiences with others outside your organization.

Examples of Sharing:

- Create a post on CHS Thrive, LinkedIn, or other social media platforms.
- Create a short video for platforms like Google Shorts, LinkedIn, or YouTube.

How to Earn: Send a link to your shared content via the [submission form](#).
